Access survey drawing sheet

Show the route, working position and support conditions for a GRP access review.

SITE MEASUREMENT

Vital

Project or site	Drawing / sketch reference	Revision	Survey date	Prepared by

Plan or section

Mark the survey datum and drawing view. Use millimetres or label any other units.

01 Draw the approach, changes of level and work position.

02 Show existing structural supports, services and openings.

03 Mark hidden geometry, handling constraints and checks outstanding.

Details to send

Asset and maintenance task

Give the equipment or area reference.

Datum, deck level and changes in level

Mark any survey level still to confirm.

Receiving structure and known loads

Identify the support material and intended use.

Clearances, services and site constraints

Show door sweeps, removal routes or restricted areas.

Use verified dimensions. Agree outstanding items before release.
